Public meetings to discuss construction at Mason Street and WIS 29 interchanges

Conversation to focus on 2011 construction schedule in Brown County

(Green Bay) The Wisconsin Department of Transportation (WisDOT) Northeast Region office in Green Bay is holding two meetings to discuss upcoming 2011 construction activities, road closures and alternative access options for the US 41 interchanges with Mason Street and WIS 29 (Shawano Avenue) in Brown County.

Both meetings take place on Monday, May 23 at the US 41 Brown County Project Office located at 1940 W. Mason Street, Green Bay. A business-only meeting is from 7:30 to 9:30 a.m. with brief presentations at 7:45 a.m. and 8:30 a.m. A general public information meeting is from 5:30 to 7:30 p.m. with brief presentations at 5:45 p.m. and 6:30 p.m. As a convenience to the public, both meetings are being conducted in an open-house format.

In early May construction began on the Shawano Avenue/Taylor Street roundabout project. Later this spring construction starts on County RK (new frontage road between County J and Packerland Drive), County J and Lambeau Street. Mason Street interchange construction begins in early 2012.

At the meetings WisDOT will provide details about the construction, impacts to residents and businesses, and present information about business signing to make sure customers find their way through work zones. The public is encouraged to attend the meetings to provide input and ask questions about the projects. Construction displays and schedule information will be available. This is the final preconstruction business meeting and public information meeting for the WIS 29 and Mason Street interchanges.
